IMPORTANT: An attempt has been made to note on this inventory all imperfections and/or damages that existed on the vehicle prior to loading. However, minor issues that are often concealed by excessive dirt or dust on the surfaces of the vehicle are excluded from this condition report and are NOT the responsibility of GTS.

During transport, vehicles and vehicle equipment may cease to operate properly through no fault of the transporter. Open transport exposes a vehicle to certain risks that are beyond the control of the transporter. The transporter will be liable only for damage directly caused by the driver. The transporter will not be responsible for any personal items left inside the vehicle, therefore it is recommended that all contents not associated with the operation of the vehicle be removed prior to shipment.
